

Ashlee Baer, LAT, ATC

Sports Medicine

My Practice Philosophy

My personal motto is—"Good, better, best. Never let it rest, until your good is better, and your better is best." I chose to be an athletic trainer because I love seeing athletes be that comeback kid for their sport. The feeling of seeing an athlete make their first big play when they come back from an injury is priceless. I put in the time so my athletes don't have to miss time.
